

LAUTARO NUÑEZ

FULLSTACK DEVELOPER

PERSONAL PROFILE

I love programming and I am dedicated to sharing my knowledge with other people. This path allowed me to improve my skills, cause **there is no better way to learn than teaching**. I look for opportunities to implement what I have learned.

SKILLS

- Advanced skills to explain code. I always try a clean and documented code.
- I have experience in group work.
- Fullstack Web Developer.
- **Experience with: JavaScript - TypeScript - Java - Node.js - Express - React - Redux - DB (SQL and NOSQL) - Python.**

WORK EXPERIENCE

Jala University
Fullstack App Developer - Bootcamp.

JUL 2024 - OCT 2024

- I was selected as a scholarship recipient for the fullstack development bootcamp.
- A queue management application was developed, applying Java Springboot and TypeScript in React with Redux.
- Layouts and wireframes were also designed using Figma projects.
